

Compact Fruit Tree Subject Index 1999

Subject	Location
Apple	
Australia	32(4):105-109
Bagging	32(1):18-26
Breeding programs	32(2):38-43
China industry	32(4):110-114
Consumer needs	32(2):38-43
Economics of fire blight control	32(3):87-88
Fertigation	32(3):91-96
Fire blight	32(3):87-88
Firmness	32(2):56-58
Foliar fertilization	32(3):91-96
Fruit analysis	32(3):91-96
Fruit color enhancement	32(1):18-26
Fruit quality	32(1):13-14; 32(4):119-122
Fruit size	32(2):54-55
Fuji, strains	32(1):18-26; 32(4):105-109
High density	32(1):18-26; 32(3):82-83; 32(4):115-118
Japan	32(1):18-26
Leaf analysis	32(3):91-96
Leaf removal	32(1):18-26
Life cycles	32(2):38-43
Light distribution	32(4):119-122
Light interception	32(4):119-122
New Zealand	32(1):15-17, 27-29; 32(4):115-118
Obsolete varieties	32(2):38-43
Orchard management	32(3):66-72; 32(4):110-114
Planting system	32(1):15-17
Pollination	32(1):18-26
Production	32(3):82-83; 32(4):110-114, 119-122
Pruning	32(3):89-90
Reasons to change	32(2):38-43
Rootstock blight	32(3):87-88
Rootstocks	32(1):15-17; 32(3):73-76; 32(4):105-109, 115-118
Aldwinckle, Herb	32(3):73-76
Breeding	32(3):73-76
Cummins, Jim	32(3):73-76
Disease resistance	32(3):73-76
Royal Gala	32(2):54-55
Soil analysis	32(3):91-96
South Tyrol, Italy	32(3):66-72
Summer pruning	32(3):89-90
Sunburn	32(1):13-14
Sunburn control	32(1):13-14
Thinning	32(1):18-26

Tree density	32(4):115-118
Tree form	32(1):18-26
Tree nutrition	32(3):91-96
Tree support systems	32(3):77-81
Tree training	32(1):15-17
Varieties	32(1):18-26, 27-29; 32(2):38-43, 56-58; 32(3):66-72, 82-83; 32(4):105-109
Woolly apple aphid	32(4):115-118
Apricot	
Breeding	32(4):123-127
Ontario production	32(2):52-53
Varieties	32(4):123-127
Carlson, Robert	32(2):33
Cherry	
Ontario production	32(2):52-53
Dwarf fruit trees	32(1):7-10
IDFTA 2000 Conference	32(2):34-35; 32(3):65
IDFTA Awards	32(2):36-37
Extension award: Ken Wilson	32(2):36-37
Grower award: Harold Schooley	32(2):36-37
Researcher award: David Pree	32(2):36-37
IDFTA history	32(1):7-10
IDFTA Internet	32(1):1
IDFTA legacy	32(1):7-10
IDFTA Research Funding	32(2):36-37
Irrigation	
Drip	32(3):84-86
Ontario, Canada	32(3):84-86
Traveling gun	32(3):84-86
Nectarine	
Breeding	32(4):123-127
Density	32(2):44-48
Fruit size	32(2):49-51
Girdling	32(2):49-51
Ontario production	32(2):52-53
Orchard systems	32(2):44-48
Rootstocks	32(2):44-48
Thinning	32(2):49-51

Tree training	32(2):44-48
Varieties	32(2):44-48, 49-51; 32(4):123-127
Peach	
Breeding	32(4):123-127
Fruit size	32(2):49-51
Girdling	32(2):49-51
High density	32(2):44-48; 32(4):98-104
Irrigation systems	32(3):84-86
Ontario production	32(2):52-53; 32(4):98-104
Orchard systems	32(2):44-48; 32(4):98-104
Rootstocks	32(2):44-48
Thinning	32(2):49-51
Tree training	32(2):44-48; 32(4):98-104
Varieties	32(2):44-48, 49-51; 32(4):123-127
White-fleshed	32(4):123-127
Pear	
Breeding	32(2):59-62
Fire blight resistance	32(2):59-62
Ontario production	32(2):52-53
Varieties	32(2):59-62
Plum	
Bearing wood	32(1):30-31
Density	32(2):44-48
Fruit size	32(2):49-51
Girdling	32(2):49-51
High density	32(1):30-31
Ontario production	32(2):52-53
Orchard systems	32(2):44-48
Plantings	32(1):30-31
Production	32(1):30-31
Pruning	32(1):30-31
Rootstocks	32(2):44-48
South Africa	32(1):11-12
Thinning	32(2):49-51
Tree training	32(1):11-12, 30-31; 32(2):44-48
Varieties	32(1):11-12; 32(2):44-48, 49-51
